

100 YEARS OF EXCELLENCE
WITHIN MARINE SURVEYING

INDEPENDENCE, INTEGRITY, COMPETENCE

”

CREATING
REAL VALUE
FOR OUR
CLIENTS IS
FUNDAMENTAL
TO US”

A 100 years in business and more than 500 marine surveys annually has granted us a considerable amount of experience and knowhow. Our vision has always remained the same:

We are committed to providing services based on integrity, efficiency and high standards. At any time, anywhere and in all relations.

Our deep insight in the marine Industry makes us a competent and reliable partner. Our highly skilled team of surveyors, like marine engineers, master mariners, naval architects and mechanical engineers, operate and act independently, with a strong focus on effectiveness, quality and professionalism to all parties involved.

We see it as our obligation to provide objective evidence and recommendations so that adequate and proper decisions and actions can be taken in any situation. This makes us a leading independent marine survey company.

MARINE OPERATIONS AND OFFSHORE RENEWABLE ENERGY

Having individual operations approved by a third party is often crucial to the marine industry, insurance companies, investors and client relations. Our dedicated personnel are highly competent to perform the review and approval activity being undertaken in accordance with the scope of work and the practise of the industry.

Survey Associations fundamental objective as Marine Warranty Surveyor is to make the best endeavours to ensure that the risk associated with the warranty operation is reduced.

- Lifting: Verifying and monitoring heavy lift and other cargo handling procedures.
- Transport: Evaluating, surveying and approving special transports
- Subsea work: Evaluating, attending and approving piledriving, underwater installations and anchor systems.
- Cable work: Review and attending cable laying plans.

ENERGY

Survey Association has adopted the Scope Of Work and Code Of Practice as outlined by the Joint Rig Committee – representing the interests of insurers writing offshore energy risks.

The Scope of Work covered by Survey Association covers Jack-Up Rig operations, wet tow of MODUs and dry tow / heavy lift (HLV) transportation of MODUs and services includes

- Location approval
- Pre-move meeting attendance
- Technical rig inspection
- Warranty surveys – rig move
- Condition surveys MODU
- Suitability Surveys on board attending towing / assisting vessels
- Certificate of Approvals (CoA)
- Towage approvals
- Cargo load outs

GLOBAL REACH AND LOCAL RESPONSE THROUGH 100 YEARS

The Survey Association of Copenhagen dates all the way back to 1806 but was first established under its present name in 1914.

Today we have a global network with world-class surveyors placed in strategic locations to ensure fast response and tailored local solutions with no compromise

on quality. We are represented in more than 10 countries in order to provide the necessary technical expertise to clients all over the world.

Wherever. Whenever.

In future Survey Association will continue to deliver value adding

services to our customers, combining our flexibility, integrity and proactive approach being the basis of our work. We remain dedicated to maintain our reputation to always safeguard the interests of our clients.
